

PW-200

MAX POWER
200 Bar

FLOW RATE
4 Gpm (15 Lpm)

MOTOR POWER
6.6 kW

"VALUE FOR MONEY"

**HIGH
PRESSURE
CLEANER**

Teryair Pneumatically Operated High Pressure Cleaners are designed for heavy duty cleaning operations in hazardous environments. These Pneumatic High Pressure Cleaners ensure safe cleaning of hazardous areas where inflammable gases & liquids exists. These heavy duty high pressure cleaners are used for removing Dirt, salt, rust deposits from Ship decks/floors, paint & graffiti off of walls, oil & grease off engines.

**Approvals and
Certifications**

All Teryair© pumps are CE marked and manufactured under an ISO 9001:2015 quality system (SGS). Teryair metal pumps are explosion proof certified (ATEX).

Variants

- Built-in bypass safety valve
- Low-speed motor/pump unit
 - NonSpark air motor
- Non Corrosive materials are used in pump, fittings & Pipes
 - 3 fully ceramic pistons
 - Better seals for longer life
 - Built-in FRL Unit
 - Built-in muffler
- High durability due to low-speed motor/pump unit
 - Chemical Injector

Main Features of PW200

- Built in bypass safety valve
- Low speedmotor / pump unit
- Non Spark air motor
- Non Corrosive materials are used in pump ,fittings & Pipes
- 3 fully ceramic pistons
- Better seals for longer life
- Built in FRL Unit
- Built in muffler
- High durability due to low speedmotor/pump unit
- Chemical Injector

Standard Accessories of PW200

- Trigger Gun and lance with quick coupling connection
- High Pressure Hose 3/8" (10m)
- Water Hose + Filter
- 5 different nozzles with quick change arrangement
